4. CURRENT MEDICATIONS

Medication	Dose	Frequency	Indication
None			

5. ALLERGIES & ADVERSE REACTIONS

No known drug allergies.

6. VISIT NOTES — VASCULAR SURGERY

Visit Date: August 5, 2025 | Attending: Dr. Elena Vasquez, MD, FACS | Type: New Patient Consult

Chief Complaint:

Spider veins on both thighs; patient is bothered by their appearance before an upcoming beach wedding.

History of Present Illness:

41-year-old male, marathon runner, with 2 years of fine purple-red thread veins on the lateral thighs bilaterally. Denies pain, heaviness, swelling, itching, cramping, skin changes, ulceration, bleeding or thrombophlebitis. No history of DVT. Symptom-free with running up to 50 miles/week.

Physical Examination:

Bilateral lateral thigh telangiectasias and reticular veins, 0.5–1.5 mm. No truncal varicosities. No edema, no skin changes, no ulcer. Pulses 2+.

Assessment & Plan:

Telangiectasia / reticular veins, CEAP C1, asymptomatic. Discussed that this is a cosmetic concern. Patient requests sclerotherapy. Duplex ordered to exclude underlying reflux as a courtesy. Will submit to insurance at patient request; counseled that coverage is unlikely.

Electronically signed: Dr. Elena Vasquez, MD, FACS — August 5, 2025

7. DIAGNOSTIC IMAGING & TESTING REPORTS

Lower Extremity Venous Reflux Duplex Ultrasound — Bilateral — August 12, 2025

Indication	Thigh telangiectasia; exclude saphenous reflux
Deep System	Normal bilaterally, no DVT.
Great Saphenous Vein	Competent bilaterally. No reflux. Diameter 3.1 mm right, 3.0 mm left.
Small Saphenous Vein	Competent bilaterally.
Perforators	No incompetent perforators.
Tributaries	No dilated tributaries.

Interpretation: No saphenous, perforator or deep venous reflux. Isolated telangiectasia without underlying venous insufficiency.

Electronically signed: Dr. Thomas Reed, RVT / Dr. Elena Vasquez, MD — August 12, 2025

8. PLANNED PROCEDURE

Planned Procedure	Sclerotherapy of telangiectasia, bilateral thighs
CPT	36468 — Injection(s) of sclerosant for spider veins (telangiectasia), limb or trunk
Laterality	Bilateral
Diagnosis	I78.1
Surgeon	Dr. Elena Vasquez, MD, FACS
Payer	Florida Blue PPO
PA Status	Pending

Clinical Indication Summary:

• Asymptomatic bilateral thigh telangiectasia, CEAP C1.

• No saphenous reflux on duplex 08/12/2025.

• Patient requests treatment for cosmetic reasons.
